ROYAL CARIBBEAN OPENS TERMINAL A

Cruise Line Opens Largest Terminal in the U.S. in Miami-Dade County

MIAMI, November 2, 2018 – Royal Caribbean Cruises Ltd. (NYSE: RCL) today will officially open Terminal A, the largest cruise port in the U.S., in collaboration with Miami-Dade County. The new terminal will be a striking addition to PortMiami and will serve as homeport to Royal Caribbean International ships such as *Symphony of the Seas* and *Allure of the Seas*, two of the world’s largest and most innovative cruise ships.

“Terminal A is an important milestone in the growth of the cruise industry in South Florida and underscores our commitment to Miami, where our company was founded almost 50 years ago,” said Richard D. Fain, CEO and Chairman of Royal Caribbean Cruises Ltd.

“We are thrilled to announce the opening of Terminal A, the largest cruise port in the U.S. and would like to thank Royal Caribbean for their continued support of the Miami community,” said Carlos A. Giménez, Mayor of Miami-Dade County. “With the opening of Terminal A, we are excited to welcome even more visitors to Miami,” said Giménez.

PortMiami currently serves 750,000 Royal Caribbean passengers annually, representing roughly 15% of the port’s overall passenger traffic. Because of the new terminal, Royal Caribbean expects to increase its Miami passenger intake to nearly 2 million annually. This will make PortMiami Royal Caribbean’s largest cruise port in the U.S., solidifying PortMiami’s status as the Cruise Capital of the World.

“We look forward to all the new and exciting developments the opening of Terminal A will bring to our cruise lines, our guests, and the Miami community. We are proud that our *Oasis* class vessels, each hosting more than 5,000 guests, will now be able to call on PortMiami,” said Michael Bayley, President and CEO of Royal Caribbean International.

Terminal A will accommodate the passengers of two of the world's largest ships in the *Oasis* class, the new *Symphony of the Seas* and her sister, *Allure of the Seas*. The new LEED certified facility, which is the largest and most modern cruise facility in the U.S., has leveraged new technologies to enhance the waiting areas and boarding experience of guests. Overall, the design evokes the points in Royal Caribbean's crown and anchor logo when viewed from the water; the 'M' of Miami when viewed from the east or western approaches; and a sense of waves rising or ships passing when viewed from the terminal side. As a result, the terminal will serve as a dynamic addition to the Miami skyline.

About Royal Caribbean Cruises Ltd.

Royal Caribbean Cruises Ltd. (NYSE: RCL) is a global cruise vacation company that controls and operates four global brands: Royal Caribbean International, Celebrity Cruises, Azamara Club Cruises and Silversea Cruises. We are also a 50 percent joint venture owner of the German brand TUI Cruises and a 49 percent shareholder in the Spanish brand Pullmantur Cruceros. Together, these brands operate a combined total of 59 ships with an additional 15 on order. They operate diverse itineraries around the world that call on all seven continents.
